

IN France

Mandatory helmet use for children under 12 from 22 March

The decree introducing this measure was published in the Official Journal on Thursday 23 December 2016.

Half victory for the C.D.C.I. .

While we were advocating the compulsory wearing of helmets for all cyclists, (see our future files) the French government has opted to make it compulsory for children aged 12 and over.

Half a victory, but we persist in our analysis that all cyclists should wear a helmet.
